

What would  
you do with an  
*extra month* of  
production?

Flexo  
Offset  
Coaters  
Gravure  
Mid Web  
Wide Web  
Laminators

Since 1984, DIP Co customers have realized six weeks more production time annually by using our liner systems. *(Based on 1 hour of saved clean up time per shift, per press)*

DIP Co has liners & drip trays for over 700 presses. If we don't have yours, we'd be happy to build them for you!

# OFFSET FOUNTAIN LINERS

*Peel up your clean up!*

Take your cleaning process to the next level with easy-to-use disposable fountain liners. Designed to cover and protect over 98% of your fountain area from ink.

- Shorten make-ready times
- Provide consistent, even ink transfer
- Help maintain optimum ink flow for better ink zone control
- Minimize rag and cleaning solution consumption
- Suitable for use with UV, conventional, & hybrid inks and coatings

# END SEALS

*Quality end seals that won't break the bank!*

DIP Co manufactures high quality and dependable end seals for many of today's narrow web ink-chambered systems. Our end seals limit ink waste and press downtime while increasing doctor blade life.

- ④ Precision waterjet cut for repeatable accuracy
- ④ Cross-linked polyethylene material for consistent quality
- ④ Economically priced
- ④ Enhanced packaging

## What our customers are saying

"...they save us an average of 20 minutes per wash-up, and that gets us up and running sooner on our next job or gets our crew out of here sooner each night."

**Ron Evans - VP of Operations, Theo Davis, an RRD Company.**

"The DIP Co fountain liners save us so much time during a wash-up that it gives more time for production during a working day."

**Mike Stankus - Press Manager, Royal Envelope Corp.**

"DIP allows us faster changeovers, quicker set-ups, and a more efficient, environmentally-friendly way of running our presses."

**Scott Pillsbury - President, Rose City Label**
