WITH SUPERIOR ANILOX ROLLERS

Harper Corporation of America is the undisputed leading innovator in anilox roller production and restoration for the Gravure and Flexographic printing markets worldwide.

Harper was founded in 1971 by Ron and Katherine Harper with a vision of helping printers achieve the best quality print possible. Founded on passion, Harper has been the pioneering company in the Flexographic printing industry and has made many contributions over the last fifty plus years, continually earning the distinction of being the first, the best, and the global leader in anilox roller products and technologies. Harper is proud to be a third generation, family-owned company, whose passion for excellence continues as we strive to offer the ultimate in surface technology and the most consistent quality engravings in the world.

HARPER CORPORATION
BROCHURE

Harper offers anilox roller and sleeves with a number of geometries and engravings to suite any application and a dedicated, one-of-a-kind technical solutions team committed to helping customers solve problems, improve performance, reduce long-term costs, obtain the unobtainable, and create long lasting partnerships. And to keep pressrooms running smooth and efficiently, our **HarperScientific** Division offers award-winning proofers, safe and user-friendly ink cleaners, and inspection equipment. No matter what your needs are, Harper has you covered!
