With over 52 years of experience in the PRINTING, COATING, LAMINATION and the converting machinery business

Headquartered in Taiwan

The trust of our customers comes from the accumulation of our quality services. The excellence comes from our enthusiasm towards work. Through positive attitudes and the extensive training that we provide internally and externally, the KYMC team are always ready to serve our global customers at our best.

Integration Driven Technology

In the era of technology bloom, KYMC maintains the pinnacle of our technology. To meet the industry 4.0 market demand, KYMC is introducing machineries that are satisfying the need of “Always Connected” and “Constant Data Collection”, emphasizing on the integration of the platforms and the existing management system.

Trust Building Through Comprehensive Service and Putting Satisfied Customers as Priority

KYMC is keen on providing consulting advice tailored to each individual customer. We believe that each customer is different. Our Engineers are constantly on the road, ready to serve customers at all times. Our mission is to satisfy our customers from all aspect.

Achieving Sustainability Through High Efficiency Machineries

We care about reducing carbon footprint to achieve a sustainable environment for the future generations. KYMC machineries are designed to be environmentally friendly and energy saving. The automations on our machineries will help to reduce waste, preventing unnecessary damage to the environment.

product line

- **Central Impression Flexographic Press**
- **Stack Flexographic Press**
- **Coating and Lamination Press**
- **UV-LED Press**

▶ Flexible Panels

Innovative Customization

Specialize in building innovative customized machineries for our customers. To fulfill the demand for quick job change, fast job set up, environmentally friendly production and energy saving. You name it, we build it.

Total Solution

The one-stop-shop to fulfill all your needs. A transition to a new printing, coating, lamination or converting process. A goal to reduce carbon and VOC emissions. A plan to setup a new production line. KYMC can help.

Affordable

At the end of the day, cost is always a crucial factor for your investment. We want you to be successful so we could be successful.

Human Driven

Each machine delivered is to solve matters from the customers' point of view. KYMC believe that each machine delivery does not mark an end, instead a start of a long-term relationship.
